

NEW MAIN OPPORTUNITY IN VERMONT FIELD

Mr. Clement Looms Up as a
Formidable Rival of Mr.
Proctor.

GIVES SENATOR HOT FIGHT

Novel Features of the First Real Political
Combat There in Many
Years.

RUTLAND, Vt., July 29.—For the first time in so many years that the oldest inhabitant doesn't remember just when it was, Vermont is indulging in a real political fight and the farmers are sitting up and taking notice. Percival W. Clement, a multi-millionaire, is trying to grab the Republican machine away from United States Senator Redfield Proctor, also a multi-millionaire, and the Senator, figuratively, is clawing the air at the very thought of any man disputing what he has considered his rights these many years.

The Senator has bossed the State for so long that the bossing is second nature to him, and if Clement takes the job away from him he will surely feel lost. All hands admit that he has been a pretty good boss, but some of the voters have become restive and they want a change.

Could Not Be Kept Down.

Four years ago Clement, who lives in a beautiful country home at Center Rutland, announced his candidacy for governor, but he lost the convention. This, however, did not jar him, and he ran on an independent ticket. He was defeated by Gen. J. G. McCullough, of Bennington and New York, and at the next biennial convention contented himself with strengthening his position. He was sponsor for the local option liquor law, and as this has worked pretty well he entered the field again last spring.

Although Clement missed the election, he gave the Proctor folk a great scare, and this year the Senator put up his son, Fletcher, the controlling spirit of the Vermont Marble Company, which is the marble to the Government, and he has both money and brains. He is willing to spend some of the money of the former to keep the office of governor in the family.

Local Option-Prohibition.

Four years ago when local option was the issue Fletcher Proctor was against changing the laws. He was pro-prohibition and spoke his thoughts in no uncertain terms. Now, all that has changed and he urges a further trial of the law which is popular and has worked to the advantage of the State in nearly all sections.

If the expenses of the State are cut down, the outside wonders if any money will be spent at all, as the annual expenditures now could be carried in a hand basket. There has been a great hue and cry that graft exists in State departments and an investigation did develop the fact that some one hooked a few cabbages grown for the benefit of the inmates of one institution. There were other petty grafts, but in the aggregate they amounted to little.

When Clement was a candidate in 1902 he had the support of the influential citizens of the State, but he lacked the labor vote. Now he has lost many of the influential citizens, but he has more laborers who will cast ballots for him.

In order to strengthen his position Clement fused with the Democrats. The party, as every one knows, isn't strong, but with Democrats on the ticket they will vote for Clement and their support is not to be sneezed at. Until the Independents and the Democrats fused, Proctor had things his own way, but the movement has worried him a good deal, as is shown by the strenuous campaign he is making. The election comes in September.

In 1902 the vote was: McCullough, 31,854; Clement, 23,201.

PLAGUE OF LOCUSTS DEVASTATES HUNGARY

Huge Clouds Obscure Heavens and Settle
Like Living Mantle on
the Earth.

VIENNA, July 29.—Myriads of locusts are devastating the country in the neighborhood of Debreczin, Hungary. They are sweeping the land and eating everything green they find in their path. Groups of 50,000 acres have already been consumed and the ground has been left bare.

All attempts so far to keep back the march of the pests have failed. The locusts swarm like flies, huge clouds of them obscuring the heavens and settling like a living mantle on the earth, until most of them are extinguished and then the survivors continue the march unimpeded.

A storm carried clouds of them over the Theiss river and they devoured practically all the corn which was standing in sheaves. What was left was rendered useless.

HORSE KILLS A BEAR. SAVING MAN'S LIFE

LEWISTON, Idaho, July 29.—I. V. Alexander, a rancher who lives on Canyon creek, near Orofino, would have been torn to pieces by a wounded bear yesterday had not his horse kicked him insensibly and then jumped upon the prostrate animal as does a deer upon a rattlesnake.

Alexander went up to Long Meadow to hunt berries. He entered a thicket, leading his horse by the bridle, and had not gone far when he routed a bear which had been wounded a short time before by some hunters but had managed to escape. Alexander turned to run, but stumbled over a log. Before he could get up the bear rushed at him.

Before the bear could reach Alexander, the latter's horse turned and kicked him several times, and as the bear fell over unconscious the horse jumped upon him with all four hoofs and stamped him to death.

Dr. Mary Walker Gives Home As Humane Prison for Young

DR. MARY WALKER,
Who Offers Handsome Estate to House Youthful Criminals.

Donates Her Residence and 230 Acres to Oswego County, N. Y.

OSWEGO, July 29.—Dr. Mary E. Walker, the only woman who was honored with a commission in the Union Army in the civil war, has tendered "Bunker Hill," her beautiful country home, with a tract of 230 acres, near here, to the county of Oswego as a place to maintain persons under twenty years of age convicted of violating the law.

All she asks in return is that the county petition the Legislature in January to give up its county jail and to legalize the method she suggests for reforming prisoners.

Dr. Walker established a sanitarium for consumptives several years ago at "Bunker Hill," and treated all who applied and were without means to pay free of charge. She urged State institutions along similar lines, and with their advent refused longer to treat charity patients, but offered to provide their transportation to the State institutions.

Like Days of Rack.

"My latest desire is again to try to better humanity," said Dr. Walker in reference to her offer to give "Bunker Hill" to the county. "Our penal institutions for old and young are in my judgment worthy of the days of the rack and the stake."

"Two hundred years have modified these conditions somewhat, and now we take our offenders against law and society, enclosing them behind thick walls and strong bars, leave them there working a little each day under taskmasters, until long years of sentence have elapsed, when they are turned out upon a pile of good in him if the right person will develop and bring it out. First it would be necessary to inclose 'Bunker Hill' to insure confinement to the tract. Suitable buildings of ordinary construction for housing the prisoners would be necessary, but they should contain as much light and sunshine as possible."

Work in Fields.

"Each inmate should be compelled to work a certain number of hours each day in the fields, and the remainder of the day should be spent in class-rooms under the direction of the best teachers. Good clothes, neat linen, wholesome food, and plenty of it, should be furnished. The man should be taken when he enters and educated from the beginning to the end."

If the county will accept my offer I will give \$100,000 in cash to help rebuild the place and pledge myself to raise as much more for the same purpose."

The value of the estate is \$1,000. The offer will be considered by the board of supervisors of the county at its annual session in November.

SPANISH WAR VETERANS TO AID BOOM MOVEMENT

Meeting of the Officers of the District
Organization Held at Home of
New Commander.

The recently elected officers of the Department of the District of Columbia United Spanish War Veterans, met for the first time last night at the home of the new commander, Capt. J. Walter Mitchell.

In order that the department may cooperate with the encampment committee it was decided that meetings should be held twice monthly until the national encampment in October. It was also decided that the department should aid the Greater Washington boom, and hereafter all correspondence will bear the advertisement of this movement.

Appointment of aides on the department staff were announced by Commander Mitchell as follows:

Hardin Camp, John J. O'Brien; Fourth Immune Camp, W. H. Mellich; Miles Camp, Joseph Likens, but he could tell something about Charlie Ross in ten words, but he fears to do so. He says that Ross is still living.

Likens made his appearance here about the time a young man named Vonodze claimed to be the long lost boy. The police are confident that he was associated in the Ross kidnapping and they believe he will some day confess. It is known that he was in Philadelphia about the time of the abduction.

BOYS OF REFORM SCHOOL TO COMPETE IN DRILL

A competitive drill will be held at 4 o'clock this afternoon at the Boy's Reform School. The contest will be among the four different "families" as they call the boys of the school, and will consist of the usual military tactics. The prize will be a flag, to be awarded to the most competent "family." The affair will be under the supervision of Major Ross, and the judges will be members of the high school cadets.

Law Furnishes Chairs FOR LAUNDRY WOMEN

St. Louis Laundries Will Be Compelled
to Give Female Workers
Rest Time.

ST. LOUIS, Mo., July 29.—Orders are being prepared by State Factory Inspector Miller directing the proprietors of all St. Louis laundries to provide seats for the girls in their employ. Notices will be served on the laundries Monday, and if the order is not complied with suits will be instituted by City Attorney Anderson.

Mr. Anderson said yesterday that from the information he had received from Inspector Miller the conditions in some of the laundries warrant this action. The law provides, Mr. Anderson explained, that women shall not be compelled to stand on their feet all day in the performance of any kind of work.

Mr. Anderson says he knows that there is much work in a laundry where it would be impossible for the women to be seated, but says this is not the fault of the lawmakers. He says the law was passed to prevent a woman from having to stand on her feet ten hours a day or five hours at a stretch.

The city attorney says that if it is found impossible for the women to do their work while sitting the laundries must shift their forces so that there will be times when the women can work at something else and remain seated. If it is impossible to do this, he says, then the laundries must shut down their machines to give the women a few minutes' rest at various intervals during the day.

CARELESSNESS IN ORDERS CAUSED RAILROAD SMASH

COLUMBUS, Ohio, July 29.—In a rear-end collision between two Toledo and Ohio Central passenger trains at Renner, ten miles west of Columbus, at 8:18 o'clock last night, five passengers were seriously injured, while sixteen others were slightly hurt.

Carelessness in the issuing of orders is generally regarded as being the cause of the accident.

FUNERAL OF JAS. CONNER FROM HAMLINE CHURCH

The funeral of James A. Conner, who died Thursday evening, was held from the Hamline Methodist Episcopal Church yesterday afternoon. The services were conducted by Dr. H. R. Naylor, presiding elder, and the Rev. Dr. Price, a former pastor of the church. The interment was in Glenwood Cemetery.

The pallbearers were selected from members of the Oldest Inhabitants' Association, of which Mr. Conner was a prominent member.

CLEANING BRIGADE IN PACKINGTOWN

Wonders Have Been Accomplished in Big Meat
Houses.

ALL NEAT AS A NEW PIN, NOW

Filthy Habits as Well as Careless
Equipment All Done Away
With.

CHICAGO, July 29.—The rules and regulations issued to Government inspectors, based on the new meat law, will become operative Wednesday in such packing houses as have "cleaned up" and complied with the standard now required. Since the first week in June, when the McNeill-Reynolds report was sent to Congress, a revolution has taken place in Packingtown. This has been accomplished by an army of mechanics employed in the plants inside and outside the yards. There is yet much to be done, chiefly in the way of complying with the rigid city building ordinances, but as to cleanliness and sanitation all hope to pass the Government inspection and secure the pure food labels.

Seven Weeks of Agony.

There are twenty packing companies doing business inside and outside the yards. For seven weeks all have been cleaning up. The "Big Four," who control the trade of the world, have been working night and day to comply with the Government requirements and regain the confidence of the public. The "Big Four" are Armour & Co., Swift & Co., Nelson Morris & Co., and Schwarzschild & Sulzberger.

In all these plants many modern lavatories have been constructed, old lavatories which ventilated into the meat-handling rooms have been removed; ventilation has been increased by the installation of apparatus or by making new openings in the buildings. Painters, kalsominers and the soap-and-water brigade have been active. Every packing plant is now thoroughly cleaned during the night by a cleaning crew which formerly paid little or no attention to the work. They use steel brushes and a hose, soap and water, and the floors, tables, trucks and bins are thoroughly scrubbed and flushed.

The killing beds are now well lighted and well ventilated, and in many of the plants the wooden floors, which aroused the criticism of all investigators, are being removed and brick or cement, properly graded and drained, substituted. Rules are posted on walls and in all lavatories requiring employees to keep their persons and clothes clean. Spitting on the floors is prohibited on penalty of discharge.

Dirty Clothes They Wore.

Heretofore there has been no uniform rule about clothing worn by employees while at work. Filthy aprons and clothing were a feature of the past. In the future the aprons and clothing will be inspected as much as the soldier and his equipment come under the eye of the commanding officer. It is the intention to have aprons uniform in each department.

Rest rooms and lunch rooms have been provided for the women, and the lavatories which formerly were a part of the rooms have been removed. Some of the plants are being entirely reconstructed to comply with requirements of the Government. The Chicago building laws, in this reconstruction metal is being substituted for wood wherever it can be done. New fire escapes, fire doors, entrances and exits have been constructed in compliance with the building ordinances.

WINNER OF BIG PRIZE IN LOTTERY FOUND

Fortune of \$100,000 Was Without a
Claimant for Over One
Month

PARIS, July 29.—The winner of the \$100,000 prize in the French lottery has been found. He is a Frenchman, who lives in Mauritius, and the glad intelligence was sent to him by cable. He is now coming to Paris forthwith to draw the money. His ticket was No. 8367, of the ninety-eight series.

Statistics issued in connection with the French lottery show that there are a good many careless or absent-minded ticket holders. Forty-eight prizes won in the lottery and amounting to \$106,000 are now lying at the Credit Lyonnais, in Paris.

The prize drawn by the Mauritius man was won in the drawing of June last, and has ever since been awaiting a claimant. The tickets were sold in England, and perhaps some of the missing winners may be found there.

Two of the prizes were won in October, and seven in December of last year, six in February, and thirty in April and June of this year.

TAGGART DOWNED; TO QUIT INDIANA

French Lick Resort to Be
Abandoned After Bitter
Fight.

INDIANAPOLIS, Ind., July 29.—National Democratic Chairman Thomas Taggart has, tacitly acknowledged defeat in his fight to maintain his gambling resort at French Lick. He has resolved to quit Indiana.

The French Lick resort will be abandoned, owing to the attitude which Governor Hanley has assumed toward him and his method of operation.

It is said that Taggart feels that a pleasure resort cannot be made profitable under conditions which the State will demand, and his experience of the last few weeks has convinced him that the governor is in earnest, and that with such an example before them future executives will not be as easy-going as were those of the past.

Taggart is said to be negotiating for properties in Missouri and Mississippi for the purpose of opening establishments in those States.

The property in Missouri on which the national chairman has his eye is at Excelsior Springs, and in Mississippi he is negotiating for a resort which he hopes to rejuvenate and make profitable.

AFTER SHOUTING PRAISES MRS. STRAHAN DROPS DEAD

BLOOMINGTON, Ill., July 29.—Mrs. Lunetta Strahan dropped dead during prayer-meeting in Henry county just after shouting "Glory to God, Glory to God."

Mrs. Strahan went to the Holiness Church, of which she was a member, and during the course of the prayer-meeting, arose to give her testimony. "I have been working hard all day," she said, "and it seemed to me as if I was surrounded by angels. I so vividly felt their presence that I did not care to talk to any one. They appeared to be all around me. Glory to God! Glory to God!" She then fell dead.

ECZEMA ON FACE AND HANDS

Troubled from Childhood With
Skin Eruptions—In Winter, Hands
Would Crack Open and Swell
Twice Their Size—Skin Now in
Splendid Condition.

"From childhood I had always been troubled with skin eruptions, more or less, and in winter my hands would crack open all over the back. You could lay a straw in any of them, but since using the Cuticura Remedies for the eczema about five years ago I have not been troubled in any way. At that time, I think, I got the eczema from handling imported hides at the Custom House stores. I doctored for it for over a month without relief. It was on my hands and face, and my hands were swollen twice their size. After losing time, I was told of a woman whose finger nails had fallen off and was cured by the Cuticura Remedies, so I tried them and I was cured, and my skin is in splendid condition now and does not crack in cold weather. I gladly give you permission to publish any part of my letter relating to the cure and use of the Cuticura Remedies. Henry O'Neill, 4940 Girard Ave., Philadelphia, Pa., July 2, 1905."

CURED BY THE CUTICURA REMEDIES

Complete Treatment for Every
Humor from Pimples
to Eczema

Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales and soften the thickened cuticle; dry without hard rubbing and apply Cuticura Ointment freely to allay itching, irritation, and inflammation, and soothe and heal; and, lastly, take Cuticura Resolvent Pills to cool and cleanse the blood. A single set, costing but one dollar, is often sufficient to cure the most torturing, disfiguring, itching, burning, and scaly skin, scalp, and blood humors, with loss of hair, from infancy to age, when all else fails.
